Subject Index of Articles*

Counseling Concepts

OBJECTIVE
The meaning of communication in counseling, 6
Our impact on tomorrow, 15
Client satisfaction, counselors, and the counseling process, 19
Guidance practices in the Soviet Union, 27
Guidance in Russia, 34
The nature of guidance, 112
Creating a climate for accepting guidance services, 190
The freshman psychology course as the basis for a student personnel program, 290
Personality dynamics and vocational counseling, 350
The counselor and his manpower responsibilities, 458
The big picture—a perspective on education, 464
Controlling the duration of counseling: minimum change therapy, 475
Controlling the duration of counseling: client problems and duration of counseling, 486
Guidance—limited or unlimited, 707
Ego-involvement in vocational decisions, 732
Student personnel services: principles and practices for small colleges, 737

METHODS AND PROCESS
The meaning of communication in counseling, 6
Client satisfaction, counselors, and the counseling process, 19
Guidance practices in the Soviet Union, 27
Guidance in Russia, 34
Effects of special attention upon potentially superior freshman students, 106
The nature of guidance, 112
Test usage in state vocational rehabilitation, 128
Effect of group guidance and individual counseling on citizenship behavior, 142
Creating a climate for accepting guidance services, 190
Experimenting with a career-curricular conference, 222
Diagnosis and evaluation in counseling, 229
The freshman psychology course as the basis for a student personnel program, 290
Student personnel services in liberal arts colleges, 296
Stability of scores on a personality inventory administered during college orientation week, 305
Personality dynamics and vocational counseling, 350
Recent studies in character-trait rating, 364
The counselor and his manpower responsibilities, 458
Study behavior of gifted stereotype and nonstereotype college students, 470
Controlling the duration of counseling: minimum change therapy, 475
Controlling the duration of counseling: counselor intervention in resistance and ignorance, 480
Controlling the duration of counseling: client problems and duration of counseling, 486
Vocational development and the election of a high school curriculum, 538
Client reaction to some aspects of the counseling situation, 546
An investigation of certain aspects of a guidance program, 558
Group size and organizational planning, 626
Listen to the lambs, 656
Guidance—limited or unlimited, 707
Roles played by adolescents in an unproductive counseling group, 724
Evaluation of an eighth grade group guidance program, 740

WORKER
Client satisfaction, counselors, and the counseling process, 19
Family problems in rehabilitation counseling, 40
Creating a climate for accepting guidance services, 190
The road ahead for the school counselor, 207
Status and certification of counselors in Ohio high schools, 285
A county studies its in-service counselor training program, 309
The school nurse as a guidance functionary, 318
The counselor and his manpower responsibilities, 458

* The classification system followed in the subject index was developed by the Bibliography Services Committee of the Division of Counseling Psychology, American Psychological Association, BARBARA A. KIRK, Chairman.

Controlling the duration of counseling: minimum change therapy, 475
A counselor's year in review, 493
Effect of student-selection of adviser on rapport, 614
The catalytic function of the counselor, 648
Counseling the disabled about work in rehabilitation, 653
Listen to the lambs, 656
Guidance—limited or unlimited, 707
Changes in attitudes associated with an N.D.E.A. counseling and guidance institute, 751

Personality

ORIGIN AND DEVELOPMENT
Current influences in the development of a concept of vocational interest, 198
Personality dynamics and vocational counseling, 350

ORGANIZATION
The factor of psychological need in occupational choice, 46
Recent studies in character-trait rating, 364
Anxiety, discrimination, and self-ideal discrepancy, 373
Study behavior of gifted stereotype and non-stereotype college students, 470
Controlling the duration of counseling: minimum change therapy, 475

CHANGE
Client satisfaction, counselors, and the counseling process, 19
Family problems in rehabilitation counseling, 40
Achievement motivation characteristics of Negro college freshmen, 146
The freshman psychology course as the basis for a student personnel program, 290
Behavior standards held by university females and their mothers, 369
Controlling the duration of counseling: minimum change therapy, 475
Controlling the duration of counseling: counselor intervention in resistance and ignorance, 480
A twenty-seven year follow-up on job satisfaction of employed adults, 489
Effect of student-selection of adviser on rapport, 614
Ego-involvement in vocational decisions, 732
Changes in attitudes associated with an N.D.E.A. counseling and guidance institute, 751

Educational Adjustment

SUCCESS PREDICTION—LEVELS
The predictive validity of A.C.E. and S.C.A.T., 52
Transition from school to work: a study of the school leaver, 98
Effects of special attention upon potentially superior freshman students, 106
The nature of guidance, 112
Factors associated with scholastic achievement in high and low achieving fraternities, 134
The sad case of the bigger lost sheep, 202
The role of the student in college policy making, 378
Sheltered workshops for the mentally retarded as an educational and vocational experience, 392
Similarities and differences between over-achieving and under-achieving students, 396
The counselor and his manpower responsibilities, 458
Academic acceleration and the college student, 563
Past performance predicts, 660

SUCCESS PREDICTION—CURRICULA
Aptitude patterns for selected major fields of study, 43
Transition from school to work: a study of the school leaver, 98
The interest factor in undergraduate engineering achievement, 401
Prediction of academic success in a school of nursing, 500
Vocational development and the election of a high school curriculum, 538
Differential interest patterns of engineering graduates, 571
Test scores and self-estimates of two curricular groups, 746

ADJUSTMENT—OTHER FACTORS
Relationship between reading retardation and the measurement of intelligence, 49
Effect of group guidance and individual counseling on citizenship behavior, 142
The sad case of the bigger lost sheep, 202
An objective scale rating the physically handicapped for educational purposes, 211
Today's women college graduates, 280
The freshman psychology course as the basis for a student personnel program, 290
Can work and college mix?, 314
Occupational impressions, occupational preferences, and residence, 358
Behavior standards held by university females and their mothers, 369
Comparisons of selected descriptive and predictive statements of superior students, their parents, and their teachers, 621
Listen to the lambs, 656

STUDENT POPULATION ANALYSIS
Transition from school to work: a study of the school leaver, 98
Factors associated with scholastic achievement in high and low achieving fraternities, 134
The sad case of the bigger lost sheep, 202
An objective scale rating the physically handicapped for educational purposes, 211
Attitudes of American students differentially liked by Latin American students, 217
Today's women college graduates, 280
The manpower future—its challenges for vocational guidance, 300
Performance of Negro veterans on nine tests, 322
The role of the student in college policy making, 378
Similarities and differences between over-achieving and under-achieving students, 396
The counselor and his manpower responsibilities, 458
Comparisons of selected descriptive and predictive statements of superior students, their parents, and their teachers, 621
Interests of gifted adolescents, 633
Student personnel services: principles and practices for small colleges, 737
Evaluation of an eighth grade group guidance program, 740

Vocational Development

OCCUPATIONAL CHOICE
Transition from school to work: a study of the school leaver, 98

Research on the teaching of occupations, 1956–1958, 150
Personality dynamics and vocational counseling, 350
Occupational impressions, occupational preferences, and residence, 358
The counselor and his manpower responsibilities, 458
Personal and social factors influencing employment of the cerebral palsied, 567
The functional occupational classification project: a critical appraisal, 698
Ego-involvement in vocational decisions, 732

Occupational Choice Prediction
The factor of psychological need in occupational choice, 46
Achievement motivation characteristics of Negro college freshman, 146
An objective scale rating the physically handicapped for educational purposes, 211
Sheltered workshops for the mentally retarded as an educational and vocational experience, 392
Success and failure in vocational rehabilitation, 497
Prediction of academic success in a school of nursing, 500
Differential interest patterns of engineering graduates, 571
Personal and social factors influencing employment of the cerebral palsied, 567
Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642
Past performance predicts, 660
The functional occupational classification project: a critical appraisal, 698
Guidance—limited or unlimited, 707
Stability of work experience as a predictor of success in terminal vocational training, 720

Job Satisfaction
The ordering of occupational values by high school freshmen and seniors, 121
Today's women college graduates, 280
Personality dynamics and vocational counseling, 350
A twenty-seven year follow-up on job satisfaction of employed adults, 489
Success and failure in vocational rehabilitation, 497
Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642
The functional occupational classification project: a critical appraisal, 707
Stability of work experience as a predictor of success in terminal vocational training, 720

Life Stages or Work Periods
Attitudes of American students differentially liked by Latin American students, 217
A twenty-seven year follow-up on job satisfaction of employed adults, 489

Adjustment Factors—Other

Sex
Behavior standards held by university females and their mothers, 369
The catalytic function of the counselor, 648

Physical
The school nurse as a guidance functionary, 318
Stability of work experience as a predictor of success in terminal vocational training, 720

Mental
Guidance practices in the Soviet Union, 27
Guidance in Russia, 34
Relationship between reading retardation and the measurement of intelligence, 49
Transition from school to work: a study of the school leaver, 98
Effects of special attention upon potentially superior freshman students, 106
Factors associated with scholastic achievement in high and low achieving fraternities, 134
Similarities and differences between over-achieving and under-achieving students, 396
The interest factor in undergraduate engineering achievement, 401
Academic acceleration and the college student, 563

Emotional—Social
The meaning of communication in counseling, 6
Client satisfaction, counselors, and the counseling process, 19
Family problems in rehabilitation counseling, 40
The factor of psychological need in occupational choice, 46
Factors associated with scholastic achievement in high and low achieving fraternities, 134
Effect of group guidance and individual counseling on citizenship behavior, 142
The freshman psychology course as the basis for a student personnel program, 290
Can work and college mix?, 314
Behavior standards held by university females and their mothers, 369
Anxiety, discrimination, and self-ideal discrepancy, 373
Study behavior of gifted stereotype and non-stereotype college students, 470
Controlling the duration of counseling: client problems and duration of counseling, 486
Religious activities on campuses of colleges and universities, 555
Personal and social factors influencing employment of the cerebral palsied, 567
Effect of student-selection of adviser on rapport, 614
Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642
The catalytic function of the counselor, 648

Measurement

Test Selection and Use
The predictive validity of A.C.E. and S.C.A.T., 52
Test usage in state vocational rehabilitation, 128
An objective scale rating the physically handicapped for educational purposes, 211
Testing the test: on taking the *fifth*, 232
Performance of Negro veterans on nine tests, 322
Recent studies in character-trait rating, 364
Short-term practice effects in tests of spatial aptitude, 385
Vocational development and the election of a high school curriculum, 538
Predictive validity of five college-level academic aptitude tests at one institution, 637
The functional occupational classification project: a critical appraisal, 698
Effects of growth, practice, and coaching on scholastic aptitude test scores, 713

Tests

INTELLIGENCE
- Relationship between reading retardation and the measurement of intelligence, 49
- The predictive validity of A.C.E. and S.C.A.T., 52
- Fathers' occupations and intelligence level of a homogeneous occupational group, 125

EDUCATIONAL APTITUDE
- Relationship between reading retardation and the measurement of intelligence, 49
- A validity check on the Brown-Holtzman Survey of Study Habits and Attitudes and the Borow College Inventory of Academic Adjustment, 552

SPECIAL APTITUDE—INTERESTS, ATTITUDES, AND VALUES
- Aptitude patterns for selected major fields of study, 43
- Short-term practice effects in tests of spatial aptitude, 385
- A validity check on the Brown-Holtzman Survey of Study Habits and Attitudes and the Borow College Inventory of Academic Adjustment, 552

PERSONALITY AND ADJUSTMENT
- The ordering of occupational values by high school freshmen and seniors, 121
- The validity of the Thurstone Temperament Schedule with adolescents, 226
- Stability of scores on a personality inventory administered during college orientation week, 305
- Recent studies in character-trait rating, 364
- Anxiety, discrimination, and self-ideal discrepancy, 373
- The House-Tree-Person test: a case study, 574

INTERESTS
- Current influences in the development of a concept of vocational interest, 198
- The interest factor in undergraduate engineering achievement, 401
- Testing the test: Geist picture interest inventory, 506
- Differential interest patterns of engineering graduates, 571
- Interests of gifted adolescents, 633

Occupational Information

ROLE
- The ordering of occupational values by high school freshmen and seniors, 121
- Fathers' occupations and intelligence level of a homogeneous occupational group, 125
- Achievement motivation characteristics of Negro college freshmen, 146
- Today's women college graduates, 280
- Personality dynamics and vocational counseling, 350
- Occupational impressions, occupational preferences, and residence, 358
- Recent studies in character-trait rating, 364
- The big picture—a perspective on education, 464
- Guidance—limited or unlimited, 707

SOURCE AND DEVELOPMENT
- Occupational impressions, occupational preferences, and residence, 358
- The functional occupational classification project: a critical appraisal, 698

MATERIALS
- Today's women college graduates, 280
- The manpower future—its challenges for vocational guidance, 300

DISSEMINATION
- The ordering of occupational values by high school freshmen and seniors, 121
- Research on the teaching of occupations, 1956–1958, 150

Process—Individual Counseling

RELATIONSHIP
- The counselor and his manpower responsibilities, 458
- Controlling the duration of counseling: minimum change therapy, 475
- Client reaction to some aspects of the counseling situation, 546
- Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642
- Counseling the disabled about work in rehabilitation, 655

METHODOLOGY
- The meaning of communication in counseling, 6
- Client satisfaction, counselors, and the counseling process, 19
- The factor of psychological need in occupational choice, 46
- The nature of guidance, 112
- Test usage in state vocational rehabilitation, 128
- Diagnosis and evaluation in counseling, 229
- Similarities and differences between over-achieving and under-achieving students, 396
- Controlling the duration of counseling: minimum change therapy, 475
- Controlling the duration of counseling: counselor intervention in resistance and ignorance, 480
- Controlling the duration of counseling: client problems and duration of counseling, 486
- Client reaction to some aspects of the counseling situation, 546
- An investigation of certain aspects of a guidance program, 558
- The House-Tree-Person test: a case study, 574
- Guidance—limited or unlimited, 707

PSYCHOTHERAPEUTIC TECHNIQUES
- Personality dynamics and vocational counseling, 350
- Controlling the duration of counseling: client problems and the duration of counseling, 486
- Effect on student-selection of adviser on rapport, 614
- Counseling the disabled about work in rehabilitation, 655

Process—Group Counseling

ACTIVITY METHODS
- Effects of special attention upon potentially superior freshman students, 106

DISCUSSION METHODS
- Effects of special attention upon potentially superior freshman students, 106
- Effect of group guidance and individual counseling on citizenship behavior, 142
- Experimenting with a career-curricular conference, 222
- The freshman psychology course as the basis for a student personnel program, 290
- Group size and organizational planning, 626
- Group orientation and placement counseling, 659

Roles played by adolescents in an unproductive counseling group, 724

Counseling Programs

COMMUNITY
Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642

COLLEGE AND UNIVERSITY
The factor of psychological need in occupational choice, 46
The predictive validity of A.C.E. and S.C.A.T., 52
Effects of special attention upon potentially superior students, 106
Achievement motivation characteristics of Negro college freshmen, 146
Research on the teaching of occupations, 1956–1958, 150
The sad case of the bigger lost sheep, 202
An objective scale rating the physically handicapped for educational purposes, 211
Experimenting with a career-curricular conference, 222
The freshman psychology course as the basis for a student personnel program, 290
Student personnel services in liberal arts colleges, 296
Stability of scores on a personality inventory administered during college orientation week, 305
Performance of Negro veterans on nine tests, 322
The role of the student in college policy making, 378
The interest factor in undergraduate engineering achievement, 401
Study behavior of gifted stereotype and nonstereotype college students, 470
Academic acceleration and the college student, 563
Differential interest patterns of engineering graduates, 571
Guidance internship training at Indiana University, 577
Effect of student-selection of adviser on rapport, 614
Comparisons of selected descriptive and predictive statements of superior students, their parents, and their teachers, 621
Predictive validity of five college-level academic aptitude tests at one institution, 637
Group orientation and placement counseling, 659
Student personnel services: principles and practices for small colleges, 737
Test scores and self-estimates of two curricular groups, 746

SCHOOL (SECONDARY AND OTHER)
Relationship between reading retardation and the measurement of intelligence, 49
Transition from school to work: a study of the school leaver, 98
The nature of guidance, 112
Effect of group guidance and individual counseling on citizenship behavior, 142
Research on the teaching of occupations, 1956–1958, 150
Creating a climate for accepting guidance services, 190
The road ahead for the school counselor, 207
Status and certification of counselors in Ohio high schools, 285
The manpower future—its challenges for vocational guidance, 300
A county studies its in-service counselor training program, 309
The school nurse as a guidance functionary, 318
A counselor's year in review, 493
Vocational development and the election of a high school curriculum, 538
An investigation of certain aspects of a guidance program, 558
Guidance internship training at Indiana University, 577
Interests of gifted adolescents, 633
Listen to the lambs, 656
Effects of growth, practice, and coaching on scholastic aptitude test scores, 713
Roles played by adolescents in an unproductive counseling group, 724
Evaluation of an eighth grade group guidance program, 740

SPECIAL GROUP
Family problems in rehabilitation counseling, 40
Test usage in state vocational rehabilitation, 128
Occupational impressions, occupational preferences, and residence, 358
Sheltered workshops for the mentally retarded as an educational and vocational experience, 392
Success and failure in vocational rehabilitation, 497
Personal and social factors influencing employment of the cerebral palsied, 567
Vocational rehabilitation of the psychiatric patient: a hospital-community problem, 642
Stability of work experience as predictor of success in terminal vocational training, 720

Profession

STANDARDS AND ETHICS
Our impact on tomorrow, 15
Changes in attitudes associated with an N.D.E.A. counseling and guidance institute, 751

SELECTION
Supervised experience and selection of counselor trainees, 195
Status and certification of counselors in Ohio high schools, 285
Counseling the disabled about work in rehabilitation, 653

TRAINING AND SUPERVISION
Test usage in state vocational rehabilitation, 128
Supervised experience and selection of counselor trainees, 195
The road ahead for the school counselor, 207
Status and certification of counselors in Ohio high schools, 285
A county studies its in-service counselor training program, 309
Listen to the lambs, 656
The functional occupational classification project: a critical appraisal, 698

RELATIONSHIP
Research on the teaching of occupations, 1956–1958, 150
Creating a climate for accepting guidance services, 190
A county studies its in-service counselor training program, 309

ORGANIZATION
Our impact on tomorrow, 15
